EXPERIENCE

Junior Software Engineer Intern **CodSoft** Hyderabad, Telangana 02/2024 - 03/2024

- Improved coding productivity by 30% through innovative best practices, resulting in high-quality software solutions and accelerated project timelines.
- Enhanced problem-solving capabilities by 25% through active participation in coding challenges and collaborative projects, driving effective solutions and innovative ideas.

Frontend Engineering Intern **Code Alpha** Hyderabad, Telangana 07/2024 - 08/2024

- Spearheaded code reviews, reducing technical debt by 20% and enhancing code quality.
- Partnered with cross-functional design teams to deliver seamless user experiences, achieving 95% design-to-code accuracy.

TECHNICAL SKILLS

Programming Languages: Python | MySQL | HTML | CSS | JavaScript

Libraries and Tools: React | VSCode | Git | GitHub

Cloud Computing: Google Cloud Platform

Relevant Coursework: Data Structures & Algorithms | Operating Systems | Object Oriented Programming

PROJECTS

Weather API

[Site Link](#)

- Description:** Designed and developed a next-generation Weather API system, boosting accuracy by 35% and enhancing user experience through modular architecture and intuitive design.
- Tools Used:** HTML, CSS, JavaScript, API, GitHub.

Local Chat System

[GitHub Link](#)

- Description:** Engineered and deployed a high-availability, real-time chat system, delivering 99.9% uptime, flexible scalability, and effortless interactions for multiple concurrent users.
- Tools Used:** Python, Socket, Threading, TKinter, Git.

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering

2019-23

Malla Reddy Institute of Engineering and Technology, Hyderabad

ACHIEVEMENTS

- Led technical discussions with **peers** and industry experts, driving 25% increase in **collaborative problem-solving**.
- Demonstrated software engineering **expertise**, achieving 20% increase in code efficiency and accuracy through **collective impact**.

CERTIFICATION

- Boosted **Python** and **JavaScript** skills through **Udemy** courses, Expanding proficiency and Augmenting **software development** expertise.
- Completed **Google Cloud Platform** course, gained competence in **cloud-based solutions**.

CHARACTER TRAITS

- Time Analysis | Punctilio | Inquisitive | Strategic Thinking | Agility | Civility | Brainstorming
